RE: MB Docket No. 14-57

Dear Chairman and Commissioners:

The Refugee & Immigrant Center at the Asian Association of Utah works with refugees and immigrants from around the world as they work to become more self-sufficient in their daily lives in the U.S. We serve over 2,000 immigrants and community members each year. Comcast has been a genuine partner in our work, both as a grantor and as a training partner as we attempt to provide the refugee and immigrant population with the language, literacy and technological skills necessary to adapt to a new life in the U.S.

I understand the Commission is tasked with determining whether or not the proposed transaction between Comcast and Time Warner Cable is allowed to move forward. I can say that in our agency's experience, Comcast is a strong leader in our community, dedicated to advancing the interests of people truly in need. Comcast staff engage with our staff, clients and the larger community for service days, opening doors to education, and supporting much-needed youth leadership programs. If the company's reach is expanded to the Pacific Northwest, I feel confident they will continue to positively impact the communities they operate in.

Sincerely,

Lina Smith

Director of Refugee Services

With support from the State of Utah Department of Workforce Services, Office of Education, Department of Health, Salt Lake County, Salt Lake City, and United Way.
